

SENTINEL

Full Survey, Design, Manufacture
and Installation service.

Component based stainless steel handrail
balustrade system.

Manufactured from stainless steel Grade 304 for internal or 316 for external applications. Surface finish can be bright polished, satin polished or powder coated.

The handrail is either 42 mm or 48 mm diameter and can incorporate LED Insert light units. (See Illumine data sheet)

The balusters are normally 48 mm diameter or flat section stainless steel.

Infill panels can be glass, perforated or woven metal, stainless steel wire, or “running rails”

Sentinel is ideal for staircases, ramps, balconies to public, commercial or private developments
